

Performance™ Series Humidifiers

Enhanced Winter Comfort

A Carrier® Performance™ Series humidifier can enhance the comfort in your home by adding moisture to dry, indoor air during the heating season. It can provide relief from dry nasal passages as well as alleviate the discomfort of dry, itchy skin and annoying static shocks. And, it can help minimize the growth of bacteria, molds, viruses and dust mites in your home.

A properly humidified home can help save energy, too. As moisture in the air evaporates, you feel colder, are likely to turn up the heat, and your system will use extra energy. Because a Carrier® humidifier can help you feel more comfortable at a lower heated temperature, you can save money on your heating costs.

With five distinct models to choose from, Carrier offers a humidifier that is just right for you.

Model	STM	LBP	SBP	WBP	LFP	SFP
Unit Type	Steam	Large bypass	Small bypass	Water saver bypass	Large fan-powered	Small fan-powered
Capacity (gallons/day)	11.5 - 34.6*	17	12	17	18	12

Notes	Large homes, highest output	Large homes	Small homes	100% efficient in water usage	Large homes	Small homes, compact size

* Varies, based on voltage and amperage.

Humidity Management

As a part of your home's year-round comfort system, a Carrier® Performance™ Series humidifier can help ensure enhanced comfort and efficiency through precision humidity management. When your system includes an Infinity® Touch Control and Carrier humidifier to go with an Infinity outdoor unit and Infinity furnace or fan coil inside, Ideal Humidity System™ technology can deliver ideal comfort, all year long.

Indoor Environment

During the heating season your home can become overly dry with relative humidity between 5 – 15%. That's drier than the Sahara Desert!† A Carrier humidifier can help you achieve a much more comfortable 35 – 50% humidity level inside, making you feel more comfortable without having to crank up the heat.

Simplicity

Convenient access from the front of the humidifier cabinet allows for quick and easy removal and replacement of the treated pad. Routine cleaning and maintenance ensures top performance.

*Limited Warranty

To the original owner, Carrier® Performance™ Series humidifiers are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. See warranty certificate at carrier.com for complete details and restrictions.

† relative humidity in the Sahara Desert is 25%
