

Infinity® Air Purifiers

Healthier Air for Your Home

The patented Infinity® air purifier is ideal for homeowners with allergy concerns, those susceptible to airborne germs (such as infants and the elderly), and those sensitive to the effects of molds, pollen, pets and more. It's our premier air cleaning and purification solution, providing the highest tested germicidal effectiveness with a 99% inactivation rate against selected viruses, bacteria and fungi. And considering most of us spend about 90% of our adult lives indoors, it's an important consideration for enhancing the environment inside your home.

Independent lab testing on the Infinity air purifier technology has shown a 99% germicidal effectiveness (inactivation) within 24 hours for the following:

- Viruses – Human influenza, common cold, avian influenza, wild type A influenza, measles, smallpox surrogate, and coronavirus (SARS)
- Bacteria – Bacillus subtilis, Mycobacterium parafortuitum (tuberculosis surrogate), Staphylococcus aureus, Serratia marcescens, Pseudomonas aeruginosa, and Streptococcus (causes sore throat)
- Fungi – Aspergillus versicolor

Innovation

Electronic air cleaners can do a great job filtering pollutants out of your home. Our Infinity® air purifier with Captures & Kills™ technology takes it to the next level by “killing”, or deactivating airborne irritants. It's the same technology trusted to protect secure government facilities and hospital room patients.

Indoor Environment

The air inside your home can be up to five times more polluted than outdoor air, spreading disease, or triggering allergic or asthmatic reactions. The Infinity® air purifier treats 100% of the air flowing through your home comfort system using a unique, three-step process. Step 1: Precision point ionization charges particles as they enter the purifier. Step 2: A specially designed, continuously charged media captures airborne particles. Step 3: Patented, state-of-the-art technology kills captured viruses, bacteria, and mold and can prevent further growth of bacteria and fungi on the filter.

Efficiency

Air filtration systems are measured with the Minimum Efficiency Reporting Value (MERV) using a scale from 1 – 16, the higher the number the better. At MERV 15, the Infinity® air purifier offers our highest filtration efficiency for enhanced indoor comfort and cleaner, more energy-efficient operation of your heating and cooling system.

*Limited Warranty

To the original owner, the Carrier® Infinity® air purifier is covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty. See warranty certificate at carrier.com for complete details and restrictions.
